Profile grooving tool, internal profil with clamped insert

Fix-Profil

Product group 04N

All internal grooving tools upon request.

Please send us a work piece drawing.

For a detailed offer, we require the following details:

- 1.) material to be machined
- 2.) desired total length of the tool
- 3.) desired diameter of the tool shaft
- 4.) desired steps of machining, for example: pre-grooving - finish grooving
- 5.) desired profile configuration
- 6.) desired cutting material, for example: HSS, Carbide, Cermet, etc.
- 7.) desired rake angle
- 8.) desired clearance angle
- 9.) desired side clearance angle

You must specify the details for items 1 - 3. If you do not have data for items 4 - 9, we will suggest values based on practical experience.

Fix-Profil inserts see pages 04A-12 - 04A-13.
